PRESENTATION ACTION LE VERT

1. Creation

ACTION LE VERT (ALV) is a Non-Governmental Organization under Congolese law created on July 4, 2001 following the multiple difficulties linked to the atrocities caused by the repeated wars of 1996 (AFDL), 1998 (RCD) and other rebellions caused by both internal and external troops.

This situation was the basis of several unfortunate events that plunged the populations of the East into inhumane conditions, including massive population displacements, looting, rape, devastation of fields, massacres of populations, etc.

In view of this dark and dramatic picture, a group of people with a humanitarian sense mobilized to come to the aid of this population in distress.

Currently, through the Department of Vocational Training and Apprenticeship of Trades, it has acquired the status of Public Agreement “**Action Le Vert**” according to **Ministerial Order No. 287 CABMIN/MIN-FPM/AKK/KMJ/maf/2023 of November 22, 2023**, of Her Excellency the Minister of Vocational Training and Trades establishing and authorizing the operation of public establishments for Vocational Training and Apprenticeship of Trades in the Democratic Republic of Congo.

While waiting to obtain another order covering the rest of the provinces of the country, and in accordance with the spirit of said Order, ALV is currently extending its activities in the provinces of Kinshasa, South Kivu, North Kivu, Ituri and Haut Uélé.

2. Mission

The mission of the organization was to alleviate, to some extent, the suffering of this wounded population by providing them with support to guarantee food security, the supervision of youth, the detraumatization of women and children victims of rape, the legal and medical support of the latter, etc.

In addition, it has assigned itself the mission of protecting the environment as well as biodiversity to consolidate socio-economic development.

3. Vision

A healthy man in a healthy environment.

4. Objectives

Overall, ALV aims to contribute to improving the living conditions of vulnerable populations in the Democratic Republic of Congo.

It specifically pursues the following objectives:

- Promote socio-economic and professional self-management of vulnerable young people and women, through the creation of Recovery, Education and Learning Centers (CREAM);
- Fight against gender inequalities and gender-based violence for the empowerment of women;
- Reverse the trend of ecosystem degradation and overexploitation of natural resources through new techniques that comply with environmental protection standards;
- Promote energy savings by popularizing improved stoves such as the Rocket Lorena Stove to reduce deforestation;

5. Area of intervention

- Food security
- Environmental protection
- Education
- Health
- Entrepreneurship
- Gender promotion in order to combat violence against girls and women.

6. Intervention strategy

ALV adopts a participatory and inclusive approach in collaboration with stakeholders.

7. Achievements

a. Food security Agropastoral

ALV supports local producers through agricultural facilitators to improve yields. It raises awareness on the use of composts for the production of organic fertilizers, it sets up anti-erosion devices, distributes improved seeds and breeding stock to farmers for the production of manure and the fight against malnutrition.

Integration into food crop fields

a. Environmental protection

Agroforestry nursery

Filling the bags

As part of the restoration of ecosystems and landscapes, ALV carried out the following activities: Installation of agroforestry and fruit nurseries in the territories of Kabare, Kalehe, Walungu and Uvira.

b. Education

CREAM BAGIRA / CIRIRI

CREAM KASIHE / KABARE

In the field of education, ALV has invested in Vocational Training and Trades Apprenticeship. At this stage, it has built two Centers in Kasihe and Ciriri. These Centers require Rehabilitation and equipment after having welcomed displaced persons from wars, they were damaged and looted of their equipment. In these centers Action Le Vert supervises children in difficult situations affected by wars, for education, vocational training for women, girls and young victims of violence and training rooms for female leaders the promotion of gender and gender equality.

Diverses filières organisées dans les Centres ALV

Cutting and sewing

Culinary art

Shoemaking and leather goods

For this work of equipping the centers, Action Le Vert needs second-hand machines for cutting and sewing, carpentry, masonry, plumbing and electricity, IT, automotive mechanics, mixed hairdressing and beauty salon and other trades. It asks legal entities or individuals who have second-hand machines to give them to us in terms of donations to support and facilitate the learning of learners.

c. **Promotion of the energy economy**

d. ALV being an NGO pursuing the objective of campaigning for the protection of the Environment, it carries out activities of popularization, construction and distribution

of improved stoves of the Rocket Lorena Stove type to reduce deforestation due to the overexploitation of natural resources. A solution for the country towards the energy transition in order to reduce by half the consumption of wood, the only source of energy used by the majority of the Congolese population

Pressures on wood resources will be reduced through the use of renewable energy and energy efficiency. This will result in increased resilience of agricultural ecosystems and contribute to the conservation objectives of protected areas..

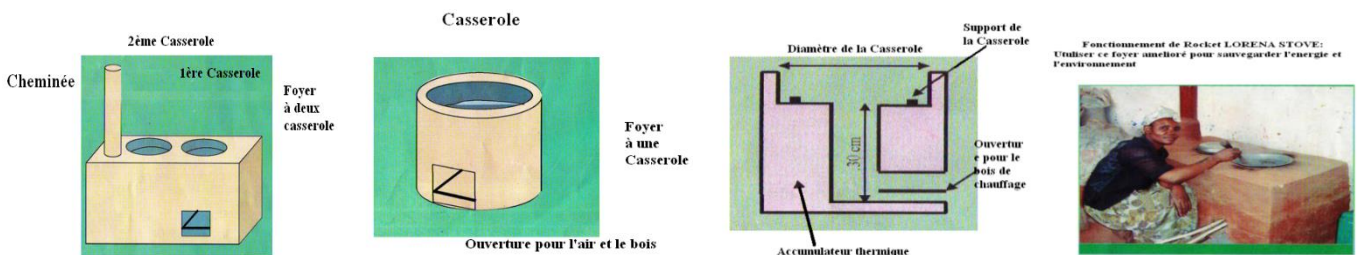

Table – summary of activities carried out

N°	Domain	Activities	Description
01	Food security and the fight Against poverty	<ul style="list-style-type: none"> - Agriculture - Livestock - Erosion control - Fish farming 	ALV supports local producers through agricultural facilitators to improve yields. It fertilizes fields with compost, sets up anti-erosion systems, distributes improved seeds, and gives breeding stock to farmers for manure production and the fight against malnutrition.
02	Environment	<ul style="list-style-type: none"> - Development of nurseries in intervention areas. - Waste management 	<p>ALV installs nurseries grouping together different species including fruit trees for reforestation and integration into food crops fields.</p> <p>Indeed, it involves all stakeholders. It sorts and transforms waste.</p>
03	Education	<ul style="list-style-type: none"> - Professional training in various professions and various sectors. - Implementation of learning centers 	<p>ALV identifies unemployed young people and women, war displaced persons, EAFGA, children in difficult situations for their professional orientation.</p> <p>It organizes training courses in apprenticeships. It has already produced.</p> <p>Some of its products are already taking care of themselves and are competitive in society.</p>
04	Gender and violence	Awareness raising and training on GBV and sexual violence in schools	Through our facilitators and trainers Action Le Vert q already sensitized and trained facilitators of Gender and violence against women and girls in 13 local schools in the province of South Kivu, it remains to be noted that each month we receive requests and solicitations from several schools that want to receive training for their pupils and students. The means being limited, we ask

			donors who can support us financially and technically to reach many schools during this year 2025.
05	Health	Awareness raising on the prevention of sexually transmitted diseases, malaria and Covid 19	We conducted awareness sessions on sexually transmitted diseases, malaria prevention and covid19 prevention in schools, public markets and churches to protect local populations against the spread of diseases..

1. Future prospects

- Increase the number of Vocational and Professional Training Centers, especially in rural areas;
- Rehabilitate and equip the Centers that need it;
- Organize training sessions in schools, churches on Gender and gender equality as well as training for women leaders to fight against GBV and VSLC (sexual violence in conflict zones).
- Collaborate for exchanges of experiences with other actors, both national and international;
- Conduct advocacy to acquire spaces that can accommodate FPM activities in the country;
- Acquire modern Tools, Instruments and equipment capable of facing competition;
- Organize advocacy to benefit from Exemptions for Donations, Materials and other equipment belonging to the ALV Organization;
- Organize advocacy to be integrated into the various government programs and continue to mobilize funds from donors in favor of the organization
